# WHO ARE PROCORRE?

Procorre is a next generation management consultancy, who work closely with global clients to deploy thousands of highly skilled and innovative consultants on projects around the world, across a range of industries.

We began in Switzerland when a number of trusted advisors joined together after recognising that combining their skills base and expertise would allow them to provide more high value projects and a greater range of benefits. We have offices in London, Geneva, Singapore and Dublin.

## OUR SERVICES

Our global, entrepreneurial business is built on sourcing and nurturing talent.

Procorre works in partnership with expert consultants who bring with them a wealth of experience and a network of both clients and talented consultants.

With the best project opportunities, we place our consultants in their preferred role. Procorre also utilise ours and a consultants network to resource projects that they otherwise would be unable to due to time restrictions, leading to additional income.

Through our Global Mobility and Project Performance teams, we provide our consultants with a dedicated point of contact to ensure they are assisted throughout the entirety of their project. This allows them to not only focus on completing the job in hand, but also to enjoy more of their life outside of work and complete projects to exemplary standards.

## OUR CONSULTANTS

We recognise and embrace the individuality and the unique skill set of our highly skilled consultants, along with what they can bring to our business as individuals and as a network. This is why we handpick the best, and reward them for their invaluable services and the contacts they can provide.

As an innovative company, we encourage our consultants to share entrepreneurial ideas based on an in-depth understanding of a particular process, regulation, function or technology. Through our Subject Matter Experts, we can work together to discover and explore groundbreaking, unique and profitable market opportunities.

By joining Procorre, the consultant becomes a key part of the business and the Procorre group.

## PROJECT PERFORMANCE TEAM

Our consultants are assigned a dedicated Project Performance Advisor who will work in partnership with them to provide essential day to day assistance, source their next opportunity and to help them build a more profitable network. The results are a significant increase in income, which is paid over and above the current contract value.

Consultants are at the centre of everything we do as a business, which is why we work closely with them to:

- Introduce new opportunities
- Refer highly skilled consultants to Procorre projects
- Encourage other consultants to join their network and build our connections
- Introduce client contacts and projects
- Increase their income by identifying future business opportunities which enable Procorre to win new business
- Communicate with other Procorre consultants in their sector through our collaboration portal

## GLOBAL MOBILITY TEAM

Our team of highly enthusiastic and knowledgeable experts has a vast experience of placing consultants in exciting opportunities around the world.

The Global Mobility team mobilise and work closely with the consultants to ensure they are placed and settled in a new country, by providing:

- Comprehensive handling of diverse immigration, employment and taxation legislation
- Ensuring they have the correct visas and work permits in place
- Extensive in-country knowledge and relocation briefings
- In-country payroll and taxation management to ensure compliance with international tax regimes
- Delivering invaluable advice and location knowledge on all issues affecting the international mobilisation of a workforce.

We have Primary Countries where we mobilise individual consultants on an ongoing basis. However, with our extensive project network and expertise, we have the capabilities to mobilise consultants all over the world.
